These special tours will include a behind-the-scenes look at The Theatre and patrons will learn how the Palace operates. They will view our film projection area, take a walk behind our stage and down the stairs into the dressing rooms, see our famous Kilgen organ up close, learn how our cloud machine still works as it did during our opening night in 1926, and much more. Expert Theatre tour guides are a wealth of information and will have many interesting anecdotes to relate about the theatre's history and events that have occurred over the years.
